Title: Control Drug IRR update			
Summary Description and Objectives: DEA expects CVS to prevent suspicious orders from being filled out of our DC's. The current IRR does not provide the proper information to meet the DEA's needs. We need control drugs to be monitored by "active ingredient". Currently the control drugs are monitored by item. The IRR loses all order history when the info on the item changes causing CVS to be non compliant with DEA expectations.			Type (Choose One): <input type="checkbox"/> Standard Path Action <input checked="" type="checkbox"/> FASTpath Action <input type="checkbox"/> Business Support <input type="checkbox"/> Ad-Hoc
